Site Capacity

National Institute of Technology Jamshedpur is an Institute of National Importance for Technical Education located at Jamshedpur, Jharkhand and it is famous for being one of India's oldest and most prestigious engineering institutes:

- NIT Campus Location: Adityapur Industrial Area
- Neighbourhood Highlight: Adityapur Railway Station (2Kms)
- NIT Campus Spread: 325–340 acres
- Established in 1960 as a Regional Engineering College (REC)
- Total Departments in NIT: 11
- Departments: Engineering, Science, and Humanities
- Approx. number of students: 3,500–4,300
- Approx. number of Faculties: ~150–200
- Approx. Undergraduate (B.Tech): ~2,000+
- Approx. Postgraduate (M.Tech, MSc, MCA): ~1,000+
- Approx. Doctoral (PhD): ~500–600

Regulatory Potential

Unique Land Governance Model (Tata Leasehold System)

Jamshedpur is different from most Indian cities because:

- A large portion of the city is Tata Steel leasehold land
- Development approvals often involve Tata Steel Utilities & Infrastructure Services Limited (TSUISL) along with civic authorities.

Positive:

- Better urban planning
- Strong infrastructure management
- Organized township planning

Analysis of Building Configuration

IREED

This analysis is based on the layout and development plan shared by Hemang Jee. Please find the key technical parameters from the drawing and the proposed residential project which is best suited for the layout:

From the Area Statement (Reference: Pdf Plan)

- Total Plot Area: 11,451 sq.m
- Net Plot Area: 11,451 sq.m
- Common / Amenity Area: 1,488 sq.m
- Permissible Coverage: 35%
- Proposed Coverage: 25.33%
- Permissible FAR: up to 3.0
- Proposed FAR Consumption: 2.99
- Total FAR Area: 34,273 sq. mt
- Total Built-up Area: 44,747 sq. mt
- Height: 42 mt (about 12 floors)

Conclusion:

This means the site is optimally designed for high-density urban housing.

Proposed Building Configuration

The layout shows three Residential Tower Buildings:

- Tower A
- Tower B
- Tower C

Each is a Multistoried Group Housing Building.

Number of Permissible Floors

- Basement (Parking + Services)
- Ground
- 12 Residential Floors
- Total Height: 42 mt

Number of Apartments

Total Number of Apartments Across the Project:

Building:	Units:
• Tower A	147
• Tower B	48
• Tower C	127
Total Units	322 Apartments

Conclusion:

This density is ideal for a mid-size apartment community.

Developer Insight:

In Jamshedpur, the buyer base mainly includes:

- Tata Steel employees
- Industrial professionals
- NIT Jamshedpur ecosystem
- Upper middle class families

They generally prefer practical amenities over luxury extravagance.

Apartment Size Category

IREED

From the Unit Plans Shared:

Type A Apartments:

- From 83 – 98 sq. mt Built-Up
- Carpet approx 80–95 sq.mt
- Ideal Size For 2 BHK / Compact 3 BHK

Type C Apartments:

- From 122–134 sq. mt Built Up
- Carpet approx 100–107 sq. mt
- Ideal Size For 3 BHK

Conclusion: So the ideal apartment size mix is:

- **2 BHK Units (900–1000 sq ft)**
- **3 BHK Units (1300–1450 sq ft)**

Car Parking Provision

IREED

Estimated Car Ownership at Jamshedpur has the following rationale:

- Relatively higher industrial income (Tata ecosystem)
- Strong Middle Class Population
- Smaller Commuting Distances

The Layout Plan Provides:

- 323 Car Parkings
- 33 Visitor Parking
- 369 Two-Wheeler Parking

This is a 1:1 Car Parking Ratio, Suitable for Middle / Upper Middle Class Housing.

IREED

IREED

Site Layout Strength

Strategic Location Advantage

- Located in the academic and industrial growth corridor of Jamshedpur.
- Close proximity to National Institute of Technology Jamshedpur, one of the most reputed engineering institutes in eastern India.
- Easy accessibility to Tatanagar Junction railway station, ensuring strong regional connectivity.
- Situated near Adityapur Industrial Area, one of the largest industrial clusters in eastern India.
- **Impact:** *High residential demand from professionals, students, and families.*

Strong Employment Catchment

- Close to the Adityapur Industrial Area housing hundreds of manufacturing units.
- Large workforce of engineers, managers, and industrial employees requiring quality housing.
- Continuous demand for rental housing from industrial professionals and consultants.
- **Impact:** *Stable end-user demand + rental potential.*

Education Hub Influence

- Presence of NIT Jamshedpur with thousands of students, faculty, and visiting researchers.
- Demand for housing from faculty members, research scholars, and student families.
- Potential for serviced apartments, rental housing, and student-oriented residential demand.
- **Impact:** *Long-term rental yield stability.*

Growing Real Estate Micro-Market

- Emerging residential corridor with increasing housing demand.
- Limited supply of planned group housing projects compared to demand from the industrial workforce.
- Opportunity to create organized gated residential community.
- **Impact:** *First-mover advantage for premium group housing.*

Estimated Sellable Product

- Perfect For Jamshedpur Middle Income Market.
